Placement Co-ordinator's Message

The placement for this batch (2019-2022) was a little bit challenging owing to the covid-19 impact on hotel and hospitality industry. However slowly and gradually we were able to place almost every student in an industry and job profile they aspired for. Most of the students opted for a job in retail sector, and hotel industry was the second option. Many of our students also got selected for corporate jobs and few other industries as well. Overall job scenario in hotel and other industry's is gradually back to pre covid-19 era and hopefully going ahead it should remain the same for future batches.
